

SUSTAINABILITY REPORT for 2020

Company Information	
Name of Organization	Pryce Corporation (“PC or the “Company”)
Location of Headquarters	17/F Pryce Center Bldg., 1179 Don Chino Roces Ave., Makati City
Location of Operations	Mindanao on real estate business; Nationwide on LPG and Industrial Gas businesses
Report Boundary: Legal entities (e.g. subsidiaries) included in this report	Pryce Corporation (PC) - Parent Company Pryce Gases, Inc. (PGI) - Subsidiary
Business Model, including Primary Activities, Brands, Products, and Services	Principal Business: PGI - sale of LPG (cooking gas) to household consumers under the “PRYCEGAS” brand. PC - development of memorial parks and sale of memorial lots thereof, under the “PRYCE GARDENS” brand; this business accounts for less than 1% of consolidated revenues.
Reporting Period	Period ended December 31, 2020
Highest Ranking Person responsible for this report	Jose Ma. C. Ordenes Treasurer; Corporate Information and Compliance Officer; SVP

ABOUT THIS REPORT

Pryce Corporation's sustainability report is essentially about how the Company's business growth is sustainable with minimal impact made to the environment while taking into consideration its responsibilities to its stakeholders, employees, and the local communities where it operates. The scope of this report, the standard(s) used in preparing this report, and the Company's nominal classification of its business are discussed in the immediate sections below. This report is continually a work in progress as it was prepared under circumstantial limitations posed by the government-imposed Enhanced Community Quarantine (ECQ) that began in mid-March of 2020. This ECQ was re-implemented starting March 29, 2021 after it was changed to General Community Quarantine (GCQ). People's mobility and transportation were controlled by LGU's strictures and safety measures against the COVID-19, especially so in the National Capital Region (NCR) where the company conducts its operations among other regions. This is understandable since the NCR is the most densely populated region in the country where COVID-19 cases are most prevalent.

The focus of this report is on the principal business of the Pryce group, which is the importation, distribution, and sale of LPG (cooking gas). This LPG business is handled by Pryce Gases, Inc. (PGI), a subsidiary of the parent company, Pryce Corporation (PC). PGI's LPG business accounts for more than 90% of the consolidated revenues of the group. The other business of PGI is the sale of industrial gases, which normally accounts for less than 5% of total revenues.

MATERIALITY BASIS

There is a wide range of topics on which to report. However, only relevant topics merit inclusion in the report, which means those that can be reasonably considered important for reflecting the Company's economic, environmental, and social impacts, or influencing the decisions of stakeholders. Impact is the effect the Company brings to the economy, the environment, and/or society (positive or negative). A topic may be relevant based on only one of these considerations. In sustainability reporting, "Materiality is the principle that determines which relevant topics are sufficiently important that it is essential to report on them." Topics or items that are herein labeled as "not material" do not mean that they are not material or important to the Company but that for

purposes of this report, not all topics are of equal importance, and the emphasis within this report is expected to reflect their relative priority.

INDUSTRY CLASSIFICATION

Based on the SASB Classification System, LPG and Memorial Park Businesses belong to the “Gas Utilities and Distributors” and “Real Estate” respectively, which are classified under the category “Infrastructure”. However, the Philippine Stock Exchange (PSE) classified the Company’s stocks under “Chemicals” which is for purposes of listing the company’s stock in the Philippine Stock Exchange. Hence, the company’s sustainability report shall adhere to the “Infrastructure” classification found in the SASB System, pursuant to the SEC guidelines.

INTRODUCTION:

Corporate Background and its subsidiaries

On Sept 7, 1989, Pryce Corporation (or “PC” or “the Company”), formerly Pryce Properties Corporation, was incorporated and registered with the Philippine Securities and Exchange Commission (SEC), with SEC Registration No. 168063. Its head office is located at the 17th floor, Pryce Center Bldg., 1179 Don Chino Roces, Makati City. The Company was established basically as a property holding and real estate development company. The Company’s shares are traded in the Philippine Stock Exchange (PSE). As of end of 1st quarter of 2021, it had a market capitalization of Php 10,025,036,175.40 based on the last trading price of Php 5.18 per share on March 31, 2021, with outstanding shares of 1,935,335,169. PC, as a parent company, is focused on the development of memorial parks and sale of memorial lots and concentrates its operations in Mindanao. In the past, it has developed upscale residential and commercial properties; it was previously engaged in the hotel business (Pryce Plaza) which was closed in December 2016. The Company currently owns and operates thirteen (13) memorial parks in Mindanao’s major and secondary cities namely: Cagayan de Oro City (CDO); Iligan City; Ozamis City; Polanco (near Dipolog City); Zamboanga City; Davao City; including the smaller memorial parks in: Manolo Fortich (actually at the boundary of CDO and Bukidnon); Malaybalay City in Bukidnon; Malita in Davao Occidental; Bislig in Surigao del Sur; Alabel in Saranggani, Pagadian City; and the most recent in

Butuan City which was launched in January 2019. The memorial park business accounts for about 1% of total revenues.

Pryce Gases, Inc. (PGI) is PC's subsidiary, which is engaged in the importation and distribution of Liquefied Petroleum Gas (LPG) under the brand name PRYCEGAS. It also produces and sells industrial gases (mainly oxygen and acetylene). PC's ownership in PGI is 91%. PGI has a wholly-owned subsidiary, Oro Oxygen Corporation (OOC), that operates in Luzon and National Capital Region (NCR). It sells and distributes PGI's LPG products (PRYCEGAS) and sells industrial gases that are sourced independently from PGI.

As discussed above, the main source of the Company's income is from the sales of LPG products. It accounts for more than 90% of aggregate revenues. Said LPG products consist of LPG (as content or cooking gas), LPG cylinders, LPG gensets, and gas stoves. The other business of PGI is the sale of industrial gases (mainly oxygen and acetylene), which covers less than 5% of consolidated revenues.

Another Subsidiary of PC is Pryce Pharmaceuticals, Inc (PPhI), a wholesaler and distributor of private branded multi-vitamins and some "over the counter" generic drugs. It was organized to primarily take advantage of the "Generic-Medicines Law". PPhI is a relatively small player in the pharmaceutical business as it was organized in September 2005. PPhI accounts for less than 1% of consolidated revenues.

ECONOMIC

ECONOMIC PERFORMANCE

Direct economic Value Generated and Distributed

Disclosure	Quantity
Direct economic value generated (total revenues)	PhP 11,708,642,164
Direct economic value distributed:	
a. Operating costs	PhP 1,298,066,424
b. Employee wages and benefits	Php 589,928,991
c. Payments to local suppliers & some operating costs	Php 8,640,848,209
d. Dividends given to stockholders and interest payments to loan providers (for 2020, net of tax)	Php 466,213,233
e. Taxes given to government (for 2020)	Php 2,879,087,030

f. Donations to community	PhP 3,008,795
---------------------------	---------------

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach
Primary business operation, which is the LPG business.	Customers, Employees, Shareholders, Suppliers	The Company's view is always strategic and long term. It is committed to always identifying means and opportunities for growing the business and to solidify its position in the market in a profitable and sustainable way.
What are the risks/s Identified	Which stakeholders are affected?	Management approach
Customers may change its cooking habits or opt for other fuels or sources of energy.	Employees, Shareholders, Suppliers	The Company does not see any change in customers' cooking habits with respect to the use of LPG within at least the next decade. However, it continually assesses and/ or identifies developments in the horizon that will affect use/s of LPG.
What are the Opportunity/ies Identified?	Which stakeholders are affected?	Management approach
Identify areas of alternative & viable uses of LPG as an energy source and possibly partner with investors for this purpose	Customers, Employees, Shareholders, Suppliers	There are opportunities for investment in low-carbon energy such as LPG, which will be much greater in the emerging economies like the Philippines. Demand for LPG is seen to

		increase in energy in the future, especially since the country still has a low LPG consumption per capita in relation to its ASEAN neighbors.
--	--	---

Business Growth

Over more than a decade, PGI has consistently grown its LPG sales volume from 29,000 metric tons in 2007 to 220,340 metric tons in 2020. And it will continue gain more in the coming years given the following:

- large opportunity for growth in the LPG market given the low LPG per capita consumption, particularly in the Visayas & Mindanao areas;
- the country's strong macro-economic fundamentals;
- growing population; and
- the country's economic momentum on the back of annual GDP growth of 6.4% [2016-2019].

The effects of the COVID-19 on the economy is a temporary setback. The nation's entrepreneurs and workforce are only too eager to take on the challenges of a post-MECQ environment.

Based on the latest data from the Department of Energy, PGI's nationwide market share of 3% in 2007 more than quadrupled to 12.6% by 2020. This accomplishment was the result of: aggressive sales efforts; establishment of infrastructure network of marine-import terminals, refilling plants and sales centers, which made the LPG products more accessible and closer to household consumers; and took maximum advantage of the nature of the LPG product whereby customers become virtually tied to an LPG brand for good.

PGI has a complete integrated infrastructure covering the entire process from importation of LPG up to its distribution, including wholesale and retail sales. The aggregate LPG storage capacity of PGI, as of March 31, 2020, in terms of its sea-fed or marine terminals and inland refilling plants is 34,082 MT which covers the whole country as shown below.

Type	Region / Location	No.	Capacity (MT)
LPG Marine Terminal	Luzon	1	8,500

	Visayas	4	12,790
	Mindanao	3	9,550
	Total	8	30,840
LPG Refilling Plant	Luzon	41	1,998
	Visayas	11	558
	Mindanao	17	895
	Total	69	3,451
	Total		34, 291

Climate-related risks and opportunities

Governance	Strategy	Risk Management	Metrics & Targets
The Company has a sound and pro-active view on climate-related issues pertaining to LPG.	Identify and assess, on a long-term and mid-term basis, climate-related risks and opportunities and to enable the company to respond to key uncertainties, including government policies around the world on climate change	Many of the company's marine terminals and inland refilling plants are of earth-mounded construction, which serves as mitigation not only against climate-related events but also against fire hazards. All of PGI's import terminals and refilling plants are covered with the appropriate insurance contracts.	[Metrics and targets under evaluation and study]

Procurement Practices

(see also the topic on Supply Chain Management)

Disclosure	Quantity
Percentage of procurement budget used for significant locations of operations that is spent on local suppliers	Less than 5%

The bulk of the cost of goods sold is accounted for by LPG, the Company's principal product, which is imported.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach
Impact to local suppliers is not significant/material.	Local suppliers	-
What are the risks/s Identified	Which stakeholders are affected?	Management approach
Not material	Local suppliers	-
What are the Opportunity/ies Identified?	Which stakeholders are affected?	Management approach
Provide business to local suppliers within any area or region the Company operates	Local suppliers	Management makes every effort to provide business to local suppliers within any area or region the Company operates.

ANTI-CORRUPTION:

Training on Anti-corruption Policies and Procedures

Disclosure	Quantity
Percentage of employees to whom the organization's anti-corruption policies and procedures have been communicated to	100%
Percentage of business partners to whom the organization's anti-corruption policies and procedures have been communicated to	100%
Percentage of directors and management that have received anti-corruption training	100%
Percentage of employees that have received anti-corruption training	100%

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach
The Company adopted an Anti-Corruption Policy which is found under the Code of Conduct and Business Ethics of the Company Handbook. To aid in its anti-corruption campaign, the Company also implements a "whistle blower" policy. This urges its employees to report and/or provide information on any misconduct, infraction or offenses made, by its officers and employees and members of the company's Board that are illegal, immoral, unethical and detrimental to the interests of the company.	Employees, product dealers, suppliers, customers, shareholders	Management continues to identify and assess areas to prevent corruption not only through punitive measures but also through inspiring and incentivizing manner.
What are the risks/s Identified	Which stakeholders are affected?	Management approach
At the very least, the Company's image will suffer (particularly employees, product dealers, suppliers) if it is	Employees, product dealers, suppliers, customers,	Management regularly reviews its anti-corruption policy, with revisions made as necessary. The Board and Senior officers set

seen that corruption, however small, is tolerated.	shareholders	themselves always as an example of integrity and honesty.
What are the Opportunity/ies Identified?	Which stakeholders are affected?	Management approach
To aim at enhancing stakeholders confidence and trust so that the Company and Management are seen as serious in its anti-corruption policy and practices	Employees, product dealers, suppliers, customers, shareholders	The Company is unswerving in its commitment to further improving its anti-corruption policy and practices, including ethics in corporate governance.

Incidents of corruption

Disclosure	Quantity (Total)
Number of incidents in which directors were removed or disciplined for corruption	0 incidents
Number of incidents in which employees were dismissed or disciplined for corruption	0 incidents
Number of incidents when contracts with business partners were terminated due to incidents of corruption	0 incidents

No incidents of corruption in the period under review.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach
The Company adopted an Anti-Corruption Policy which is found under the Code of Conduct and Business Ethics of the Company	Employees, product dealers, suppliers, customers, shareholders	Management continues to identify and assess areas to prevent corruption not only through punitive measures but also through inspiring and incentivizing manner.

ENVIRONMENT

RESOURCE MANAGEMENT

Energy consumption within the organization (LPG operations only)

Disclosure	Quantity
Energy consumption (renewable sources)	None used
Energy consumption (gasoline)	Not material
Energy consumption (LPG)	Nil
Energy consumption (diesel)	Not material
Energy consumption (electricity)	Not material

The combined costs of gasoline and diesel consumption are less than 1% of either total revenues or cost of goods sold or operating expenses. The same can be said of electrical consumption, which is to say that this consumption is not intensive in the Company's LPG operations since the marine terminals and refilling plants are essentially used to store imported LPG -- no production/manufacturing of LPG is involved. Nonetheless, the Company's plant design engineers are only too aware of the importance of reducing energy consumption thru: value engineering, simplified & minimum energy impact designs, and rational selection of equipment & machineries. There is no equipment or machinery in the import terminals and plants that are powered by LPG, except for select few equipment in certain areas where availability of electric power is unstable and/or inadequate.

Reduction of energy consumption (LPG operations only)

Disclosure	Quantity
Energy consumption (renewable sources)	None used
Energy consumption (gasoline)	Not material
Energy consumption (LPG)	Nil
Energy consumption (diesel)	Not material
Energy consumption (electricity)	Not material

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach
Not material		-
What are the risks/s Identified	Which stakeholders are affected?	Management approach
Not material		-
What are the Opportunity/ies Identified?	Which stakeholders are affected?	Management approach
Not material		-

Water consumption within the organization

Disclosure	Quantity
Water withdrawal	See note below
Water consumption	Not material
Water recycled and reused	Not material

Consumption of water in any import terminals and refilling plants is not intensive precisely because these facilities are essentially designed for storing the LPG product – no production or manufacturing of LPG is involved. Collectively, water consumed for regular firefighting drills is not substantial. These facilities use deep-well water sources since water supply from the local water districts do not have adequate water supply and/or water pressure, which is necessary particularly for firefighting means.

What is the impact and where does it	Which stakeholders	Management
--------------------------------------	--------------------	------------

Identified?	are affected?	approach
Not material as discussed above		

Ecosystem and biodiversity (whether in upland/ watershed or coastal/ marine)

Disclosure	Quantity
Operational sites owned, leased, managed in, or adjacent to, protected areas and areas of high biodiversity value outside protected areas	None
Habitat protected or restored	None
IUCN Red list species and national conversation list species with habitats in areas affected by operations	None

The Company's import-marine terminals are located outside protected areas, and thus have very low biodiversity values. Specifically, import marine terminals are situated in areas where there are no coral reefs present. Structures like mooring posts and breasting dolphins, receiving platforms (jetties) and foundations thereof, and submerged pipelines are installed such that no negative impact is caused. These structures may in fact serve as artificial coral reefs where marine life can flourish and become its ecological habitat and sanctuary.

For instance, an updated marine resource assessment conducted in 2019 on the Company's Ayungon teminal (constructed in 1997) in Negros Oriental states that: *"The construction of the mooring/berthing structures and installation of submarine pipelines twenty-two (22) years ago did not cause adverse impact on the marine organisms dwelling in the area, instead it became their refuge and new found habitat"*.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach

ENVIRONMENTAL IMPACT MANAGEMENT

Air emissions

GHG

Disclosure	Quantity
Direct (Scope1) GHG Emissions	Not material
Energy Indirect (Scope 2) GHG Emissions	Not material
Emissions of ozone-depleting substances (ODS)	Not material

LPG when released is not a highly impacting greenhouse gas. LPG is a clean burning fuel with very few emissions, which is why it is labeled as good transition fuel or bridging fuel in the long-term transition to a truly sustainable global energy system. No LPG is combusted or burned in all marine terminals or refilling plants except for some equipment in few areas where availability of electric power is unstable and/or inadequate.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach

Air pollutants

Disclosure	Quantity
NO _x	Not material
So _x	Not material
Persistent Organic Pollutants (POPs)	Not material
Volatile Organic Compounds (VOCs)	Not material
Hazardous Air Pollutants (HAPs)	Not material
Particulate Matter (PM)	Not material

All terminals and refilling plants essentially function to store and contain the LPG product. (The Company's safety policies, regulations, and practices ensure that no accidental burning or combustion of LPG product arises in any of the marine terminals or inland refilling plants.) These facilities have storage tanks that serve to receive the LPG for storage and from which same tanks the LPG is withdrawn either for purposes of transferring the product or refilling LPG cylinders. PGI is not engaged in the production or manufacturing of LPG.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach

ENVIRONMENTAL COMPLIANCE

Non-compliance with Environmental Laws and Regulations

Disclosure	Quantity
Total amount of monetary fines for non-compliance with environmental laws and/or regulations	None
No. of non-monetary sanctions for non-compliance with environmental laws and/or regulations	None
No. of cases resolved through dispute resolution mechanism	None

Pryce Corporation and its subsidiaries are fully compliant, having been issued with an Environmental Compliance Certificate (ECC) issued by the Department of Environment and Natural Resources (DENR) for all its Marine Terminals, Refilling Plants, Industrial Gas plants, and Memorial Parks.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management approach
The Company conforms with all government regulations relative to the environment in so far as all business units: LPG business; Industrial Gas; Memorial Parks	Community, shareholders, LGUs	The Company views environmental compliance as an essential facet of the business especially with respect to the LPG business in terms of: choosing a location for an import terminal or refilling plant; plant design & equipment selection; and operational & safety issues.
What are the risks/s Identified	Which stakeholders are affected?	Management approach
May subject the Company to penalties, sanctions, and	Community, shareholders,	Management consistently updates its submissions to the DENR offices

could even result in stopped operations if violation(s) is grave, wanton or repeated	LGUs	for renewal of clearances and permits. It is careful about this matter and takes a proactive stance by anticipating any potential issues or problems that may arise.
What are the Opportunity/ies Identified?	Which stakeholders are affected?	Management approach
It is always to the Company's benefit in seeing to it that all its business units are compliant with environmental rules and regulations.	Community, shareholders, LGUs	Review and assessment of company practices and policies (written or unwritten) are conducted on a periodic basis or as necessary.

SOCIAL

EMPLOYEE MANAGEMENT

Telecommuting	No	-	-
Flexible working hours	Yes	13%	21%
(others)	No	-	-

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
Motivated employees	Provide quality leadership & management down the line; seek full involvement of the employees so that they contribute to continual improvement of products & services; and make them understand the importance of their contribution and role in the organization
What are the risks/s identified	Management approach
Unmotivated employees	At the outset, the right person must be hired for the right function. Management also does the following: a) require full involvement of employees; b) reemphasizes the goals; c) make goals & objectives clearer to understand; and d) make employees understand what is expected of them.

What are the Opportunity/ies identified?	Management approach
Productive employees; creative & good problem solvers; understands the Company's goals & objectives	Review, assess and improve: hiring processes; employee benefits; methods of communicating goals & objectives to employees; and other relevant considerations (e.g., keeping valued employees)

Employee Training and Development

Disclosure	Quantity
Total training hours provided to employees	
a. Female employees	173,906 hours
b. Male employees	491,980 hours
Average training hours provided to employees	
a. Female employees	203 hours/employee
b. Male employees	243 hours/employees

Note: The significant increase in training hours above is due to the substantial number of newly hired employees and sales trainees, which was brought about by expansions of the company in its LPG business.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
Proficient employees developed through training & practice, but even more valued and important are those who are dedicated to the job and creative in finding ways to solve problems or improve	<p>The Company does the following in developing people to become dedicated to the job and problem solvers and innovative:</p> <ul style="list-style-type: none"> • Make clear to the employees what the Company's objectives are; • Recognition & reward of job well done; • Conduct regular review & assessment meetings, which particularly include challenging existing ideas and practices whether in the company or

existing ways of doing things.	industry; <ul style="list-style-type: none"> • Providing opportunities for individual growth; • Mentoring & coaching
What are the risks/s identified	Management approach
Losing valued employees as described above	The Company employs the following in order to retain valuable employees: <ul style="list-style-type: none"> • Key managers are given challenging work-related goals; • Compensation that shares in company's financial performance; • Competitive benefits package; • Recognition & reward of job well done, specially announced during special company events; • Career growth and advancement with enhanced compensation and benefit package
What are the Opportunity/ies identified?	Management approach
Retain valued employees as described above and train & enable them to occupy positions of greater challenge & responsibility.	The Company reviews and re-assesses its current approaches/ policies and identify new ways of further improving the above describe approaches.

Labor Management Relations

Disclosure	Quantity
% of employees covered with collective bargaining Agreements	0
Number of consultations conducted with employees concerning employee-related policies	23 per month or 276 per year

The employees are not subject to Collective Bargaining Agreement (CBA) since the parent company and its subsidiaries are non-unionized. Consultations are done with employees on matters that affect their welfare and needs. (The

increase in number of consultations is again due to the increased number of employees hired, as had been explained above.)

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
Cooperative working relationship between employees and management	<p>The Company does the following to prevent potential disputes between management and employees:</p> <ul style="list-style-type: none"> • Maintain open lines of communications; • Fairness & equal treatment; • Set clear work-related goals that are achievable with realistic deadlines; • Provide adequate employee benefits (health care benefit, bonuses, bereavement/ burial subsidy, benefits from retirement fund, food, lodging where necessary, government mandated benefits);
What are the risks/s identified	Management approach
Disputes between management and employees which might result in disruption of operations	<p>Same approach as described above.</p> <p>It must be noted though that in more than 30 years of the Company's existence, no major dispute has ever occurred between management and employees that has caused disruption of operations or services.</p>
What are the Opportunity/ies identified?	Management approach
Address immediately potential sources of conflict with management	Continuous assessment and review of the Company's policy and practices on prevention of disputes

Diversity and Equal Opportunity

Disclosure	Quantity
% of female workers in the workforce	21%
% of male workers in the workforce	79%
Number of employees from indigenous communities and or vulnerable sector*	18 employees

**Vulnerable sector includes solo parent, person with disability (PWD), and elderly*

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
Business operations of all units (LPG & industrial gas business, memorial parks, and pharmaceutical business) wherein diverse groups of workers and employees are treated equally, who are aware there are common goals to achieve in the interest of the company that will redound to not only to their benefit but to the other stakeholders alike -- shareholders and customers.	The Company gives equal opportunities for career growth and advancement to all workers and employees irrespective of his/her status in life, gender, religion, amount of education, and age.
What are the risks/s identified	Management approach
Unequal treatment or workplace discrimination	Career growth and advancement is based on merit and the capability to contribute to the Company's objectives and add value to products or services.
What are the Opportunity/ies identified?	Management approach
Recognize each employee's unique contribution and	Continuous assessment and review of the Company's

encourage their participation on all matters that affect not only the Company but their welfare and employment as well	policy and practices on equality and diversity.

No. of work-related injuries	Not material [1 only, a minor injury]
No. of work related fatalities	0
No. of work related ill-health	0
No. of safety drills	444

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
The Company has business units (LPG & industrial gas business, memorial parks, pharmaceutical business) wherein employees are fit to work in a safe-work environment.	Management ensures that policies on employees' welfare, health, and safe work environment are backed by equal treatment and firm implementation of rules.
What are the risks/s identified	Management approach
In the Company's LPG facilities, there is the potential of fire hazard to workers and employees.	The employees are provided the following: continuous training & education on safety practices; safety paraphernalia; further, the facilities they work in contain adequate firefighting devices and

	equipment, which are compliant with recognized fire safety standards. Strict implementation of safety rules is ensured, which is complemented by punitive and incentivizing measures to ensure enforcement.
What are the Opportunity/ies identified?	Management approach
A secure and safe working environment for motivated employees	Employees are encouraged to engage management in addressing issues affecting their work places with respect to their wellbeing and safety.

Labor Laws and Human Rights (forced or child labor)

Disclosure	Quantity
No. of legal actions or employee grievances involving forced or child labor	none

This topic is not material as the Company values human freedom & dignity and abides by all Philippine laws on labor and is totally against forced or child labor, hence no legal actions or employee grievances involving forced or child labor has ever occurred.

SUPPLY CHAIN MANAGEMENT (and RELATIONSHIP WITH SUPPLIERS)

The Company does not have a formal accreditation policy. However, on ordinary transactions (routine, small-value or repeat purchases), new suppliers may be included subject to standard mode of canvassing and basic / normal purchasing criteria (e.g., right price, compliance to specifications, capability to deliver on time).

On major transactions of large-volume purchases or large projects, an entrant vendor or contractor is subjected to the following criteria:

- i. Technical capability to deliver or perform based on the specifications in the purchase order or project contract;
- ii. Timely delivery of the volume requirement or completion of the scope of works on time;
- iii. Has the financial resources to deliver on the order or project commitment;
- iv. Has a satisfactory track record with other customers/ clients.

The Company has mutually beneficial relationships with certain suppliers and contractors who are reputable and recognized in the industry. These business relationships have been established over a considerable period that is based on trust -- albeit always on an arms-length basis. This arrangement has the following advantages:

- a) Increased interaction that leads to less incidents or issues of errors or poor performance;
- b) Increased efficiency and communication lead to better understanding of the Company's market, business, and business processes;
- c) Interactive process of continual improvement of both products and services

Sustainability topics below when considering a supplier:

Topic	Yes/ No	
Environmental performance	Yes	The Company is not aware of any supplier's or contractor's violations of laws on environmental protection, forced or child labor, human rights protection, bribery & corruption. A discovered serious violation could mean blacklisting and/or stoppage of purchases or cancellation of contract when lawfully warranted or allowed by contract.
Forced labor	Yes	
Child labor	Yes	
Human rights	Yes	
Bribery & corruption	Yes	

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
The Company's customer benefits from a stable supply of LPG (cooking gas) nationwide, which is competitively priced.	The Company has a complete integrated infrastructure that covers the entire process from importation of LPG up to its distribution, including wholesale and retail sales. The Company imports LPG from Asian suppliers which transport the same via marine carrier to any schedule-appointed import terminals that are strategically located across Luzon, Visayas, and Mindanao regions. From said terminal, the LPG is transferred to lorries (trucks) that deliver the same to Company-owned refilling plants. Private dealers have their cylinders refilled with LPG at such refilling plants (or marine terminals). LPG (contained in said cylinders) is sold to household consumers through dealers or Company-owned sales centers. This network of marine terminals, refilling plants, sales centers, private dealers and outlets assure the Company's customers of a stable supply of LPG.
What are the risks/s identified	Management approach
Supply disruption of LPG resulting in inability to meet customers' demand and satisfy the same; loss in revenue & income.	Contracting of imported supply of LPG at a negotiated price, over a desired period to optimize inventory levels, ensures a safe buffer stock and mitigates uncertainties of price volatility.
What are the Opportunity/ies identified?	Management approach
Market demand for LPG continues to grow on the back of the country's low LPG consumption per capita and bolstered by strong household incomes brought about by a continually growing economy over the last decade.	In response to growth in market demand for LPG, the Company not only expanded the storage capacities of its marine terminals and refilling plants in recent years but continues to put up refilling plants and sales centers in various locations in the country thereby making its LPG product much closer and accessible to household consumers.

RELATIONSHIP WITH COMMUNITY

Significant Impacts on Local Communities

Operations with significant impact on local communities	Location	Vulnerable groups	Does the operation have impact on indigenous peoples? (Yes/ No)	Collective or individual rights have been identified that is of particular concern to the community	Mitigating measures (if negative) or enhancement measures (if positive)
LPG operations – the primary business	The Company's LPG business operates nationwide (Luzon, Visayas & Mindanao) in strategic areas so that the LPG (cooking gas) is made accessible to the household consumers	No vulnerable groups are affected negatively	No significant impact on indigenous people since the Company's business units are located in the cities or urbanized locations	<p>The putting up of LPG terminals, plants, or sales centers provides employment to the locality thereby addressing the people's right to livelihood.</p> <p>In certain areas in Visayas or Mindanao where use of charcoal or firewood (that can be harmful to health) exists, the households are provided with the option of</p>	No negative impact, hence no mitigating measures

				clean, safe & convenient use of LPG.

Certificates	Quantity	Units
FPIC process is still ongoing	-	-
CP secured	-	-

These items are not relevant because Company's LPG businesses are located in the cities or urbanized locations.

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
<p>The putting up of LPG terminals, plants, or sales centers in a locality results in providing employment to the residents thereof.</p> <p>In certain areas in Visayas or Mindanao where use of kerosene or charcoal or firewood (that can be harmful to health) exists, the households are provided with the option of clean, safe & convenient use of LPG.</p>	Management is much aware of these positive impacts to a community(ies), while generating revenues for the Company at the same time. This is one reason, among others, that encourages the Company to expand its business.
What are the risks/s identified	Management approach
A community leader or certain residents may oppose/ resist the LPG facility that is to be constructed.	This risk is avoided by observing / studying the locality's zoning ordinance and choosing the appropriate/ viable area for the LPG facility. By experience, this risk is low since people are commonly familiar with LPG as a fuel for cooking and are aware of how to use it safely.
What are the Opportunity/ies identified?	Management approach
Generating revenues and income for the Company	Same as above

CUSTOMER MANAGEMENT

Customer Satisfaction

Disclosure	Score	Did a third party conduct the customer satisfaction study (Y/N)?
Customer satisfaction	-	No

What is the impact and where does it occur? What is the organization's involvement in the impact?	Management approach
Customer satisfaction is an important element to customer retention with respect to LPG products, especially since the Company operates in an industry where competition is stiff.	The sales operations people stay close to their dealers and consumers whether to obtain helpful information (for marketing or sales purposes) and/or address complaints – a key ingredient in knowing and understanding the customers.
What are the risks/s identified	Management approach
Customers could be lost to competition due to inconsistency in delivery, product unavailability, unanswered complaints; or the competition offers a better service or product.	Important areas to management in achieving customer satisfaction are: Product availability & proximity; Prompt response to complaints/ queries; and Product innovation. Management ensures that these things are done right and thus solidify the customer base.
What are the Opportunity/ies Identified?	Management approach
The Company also has to be keen on what the competition is doing and what are the relative strengths and weaknesses of the competitor(s).	Knowing the competitors' strength and weaknesses in relation to the Company's resources and its position in the market gives management the latitude on when to react and

	how.

CORPORATE GOVERNANCE

The Company maintains a Manual of Corporate Governance (the “Manual”) to institutionalize sound corporate governance practices, enhance investor protection, and increase accountability. The Company has a Compliance Officer (as the Manual requires) who has direct reporting responsibilities to the Chairman of the Board of Directors and monitors compliance with corporate governance matters. The Manual was revised / updated in March 2011 and July 2014 pursuant to SEC circulars. The Company nevertheless continuously reviews and evaluates its corporate governance policies to ensure the observance of sound governance practices. Likewise, pursuant to the requirements of the Manual, different board committees had been constituted whose members are appointed annually during the Board’s Organizational Meeting on the same day the annual stockholders’ meeting is held. The different board committees are: Audit Committee; Nomination Committee; Compensation and Remuneration Committee.

UN SUSTAINABLE DEVELOPMENT GOALS

Product Contribution to UN Sustainable Development Goals (SDGs)

Key Product	Societal Value / Contribution to SDG	Potential Negative Impact of Contribution	Management approach to negative impact
LPG cooking gas (and related products: cylinders; LPG gensets; stoves & accessories)	Affordable & Clean Energy - as discussed above, LPG is a clean burning fuel with very few emissions. Households are sold with a reliable supply of clean cooking gas (LPG) through safe to use and well-maintained durable steel cylinders.	LPG in the common 11-kg cylinders might not be affordable to those in the relatively lower income strata.	For those customers who want to stay within their budget, the Company has the affordable 2.7-kg sized Powerkalan. This is 58% to 60% lower than the regular 11-kg size that is used by the large majority of household consumers.
	Promotes sustainable use of	At the moment, the	-

	<p>Terrestrial Ecosystems - Apart from being a reasonably clean burning fuel compared to other fossil-based fuels, LPG is also non-toxic and has no impact on soil, water and underground aquifers.</p>	<p>Company sees no potential negative on this contribution.</p>	
	<p>Provides Employment & Contributes to Economic Growth - The Company conducts its LPG business nationwide, under the brand name PRYCEGAS, in various areas of Luzon, Visayas, and Mindanao. It provides employment to around 5,000 people around the country, which includes probationary and regular employees, as well as people from providers of contracted services. The Company's LPG product (cooking gas) is a basic convenience that every household needs. Historical data from the Department of Energy has consistently shown increase in LPG demand, driven by increasing household income, a consistently growing economy especially in the last decade, and a relatively low LPG per capita consumption indicating much room for growth in the LPG industry. These considerations inspire the Company's drive to further expanding its plant capacities and business operations, which in turn will bring more employment to many. Employment necessarily impacts positively on poverty alleviation and inequality.</p>	<p>No potential negative impact on this contribution, except perhaps if the Company stops as a going concern possibly owing to the vagaries of the market, in which case there will be loss of employment for the Company employees.</p>	<p>The stability of the company's LPG business is underpinned by the following:</p> <ul style="list-style-type: none"> • Market demand for LPG will continue to grow given the country's low LPG consumption per capita compared to certain ASEAN neighbors - there is thus much room for demand growth; • Strong household incomes can support the above demand, and such incomes have been brought about by the continually growing economy over the last decade; • The LPG business is such that customers are virtually tied to a brand; they cannot easily switch brands since the refilling of a branded cylinder by another supplier is unlawful. • LPG as an energy source is a clean burning fuel with very low emissions so that its use will stay for <u>at least</u> the next many decades; also, it is cheaper compared to heating by electricity; • Competitively-priced green energy substitutes for LPG still

			<p>need to be completely developed and commercialized on a large scale globally.</p> <p>Further, the Company has already built a nationwide infrastructure network of import terminals, refilling plants, sales centers, and dealers that have made its LPG (cooking gas) closer and accessible to its consumers, and assure the market with a steady supply of LPG.</p>
	Gender Equality - All operations and activities within the Company's businesses (LPG, memorial park operations, and pharmaceutical products) are such that they are gender neutral.	There are certain jobs or tasks that involve lifting / handling of very heavy steel cylinders (with content) that tends to favor the male gender.	Management does not have a policy expressly prohibiting the female gender from choosing to handle such tasks. However, this is a culture bound matter; women in Philippine society will almost always not take up such kind of heavy tasks.
	Partnership for the UN SDG – the foregoing considerations definitely makes the product and the Company a partner in promoting the goals for a sustainable development.	Collectively covered above already	Collectively covered above already
	LPG is a very good substitute for charcoal and woodfuels for a substantial part of household cooking fuel and thus contribute positively toward several of the SDGs (Sustainable Dev't Goals).	Collectively covered above already	Collectively covered above already
	Urban households, including growing demographic spheres, such as the transition zone between the urban and rural boundaries, shall have a significant and untapped opportunity to use LPGs	At the moment, the Company sees no potential negative on this contribution.	
	LPG represents an important, albeit partial solution for the	There are other competing forms or	Focusing on the product strategy and maintaining the

	billions that must gain access to clean and modern cooking solutions.	means of cooking solutions.	skills needed in operating the business will defy any negative impact.
